Geometry IA & IB	Pg 28	Use teacher rec. #	Note: Course names will come up Informal Geometry and Geometry
Discrete Math	NEW for beyond Calculus AB & BC	122091A0	New course.

Students, you will be inputting your course selections into Virtual Counselor. If you have not yet logged into Virtual Counselor then you do so by going to the BrowardSchools.com web site and selecting the Virtual Counselor link on the home page. When you are asked to log in you will use your student number (the one beginning with 06) and your password will be your birth day, birth month, birth year (i.e. June 10, 1987 would be 06/10/1987.) Note that since June is represented by only one digit you must put a 0 in front of the six. Likewise, any month or day that is only one digit must have a zero placed in the front.

If you go into it now you can see the screen for "Course Selections" and any teacher recommendations as your teachers input them. You will not be able to input any selections until you have been through an orientation with a guidance counselor. If you believe your teacher recommendation needs to be changed, you will need the teacher's signature on your worksheet (pg. 45 of the Guide for grades 10-12.) Additionally, if a course you are requesting is not listed and requires a teacher recommendation as indicated in the Curriculum Guide you will also need to have teacher signatures for approval.

During the orientation you will need to be ready to input 8 selections and 2 alternates. You will be able to change the selections after the initial entry. Later you will return to the lab for a follow-up orientation when you will be able to pick your Term and Period for each class. It is very important that you be ready because the course availability will be on a first come first served basis. Next year's senior will have first shot at selections, then juniors, then sophomores.

SO BE READY!!
